## CAREER OBJECTIVE

Electronics & Telecommunication Engineering undergraduate with experience in embedded systems, IoT, PCB design, and hardware prototyping. Delivered 20+ embedded and IoT projects for clients with hands-on experience in circuit design, and end-to-end project execution.

## WORK EXPERIENCE

**Embedded Systems Developer** Mar 2026 - Apr 2026
Self-employed, Pune

Delivered 20+ embedded systems projects (ESP32, Arduino, KiCad PCB) with 100% on-time completion for 30+ freelance clientsEngineered firmware, PCB designs & sensor integration across IoT automation, home control, biomedical monitoring, and GSM-based alert systemsDrove full-cycle project delivery from client requirement analysis through testing & deployment; built strong client retention and repeat businessCurrently advancing embedded C expertise via structured training to transition toward firmware-focused internship roles

## EDUCATION

**B.Tech, Electronics and Telecommunication Engineering (ETE)** 2024 - 2028
Sinhgad College of Engineering, Pune

**Senior Secondary (XII), Maharashtra State Board Of Secondary And Higher Secondary Education** 2024
Science

Lords Public School, Bhandara

Percentage: 69.20%

**Secondary (X), Maharashtra State Board Of Secondary And Higher Secondary Education** 2022
Wainganga Vidyalaya Pauni

Percentage: 94.00%

## TRAININGS / CERTIFICATIONS

**Embedded C**
Jul 2026 - Present

udemy, Virtual

Microcontroller Embedded C Programming: Foundations for Firmware Engineers Udemy | Instructor: Kiran Nayak | In Progress (Section 8/12, ~70% complete)
Started: July 2025 | Expected Completion: August 2025

**INTERNET OF THINGS COURSE**
Oct 2025 - Feb 2026

Core2web, Pune

IoT Development Core2Web | Offline Training |
Completed: Jan/2026
Topics: Hardware ,WiFi protocols, Blynk IoT platform, cloud data logging, remote monitoring, etc

**PCB Design**
Feb 2026 - May 2026

Intershala Trainings, Virtual

PCB Design Fundamentals Internshala
Tools: KiCad | Applied to 5+ custom PCBs shipped in freelance projects

## PORTFOLIO

## PROJECTS

### Client Deployments ↗

Mar 2026 - Apr 2026

Building hardware that works in the field—not just on a breadboard. 20+ projects delivered across home automation, industrial pump control, and IoT systems.

Started with curiosity. Saw a circuit work for the first time and realized electronics isn't theory—it's a tool to build real products. That's what pulled me deeper.
2nd-year ENTC at Sinhgad College of Engineering, Pune. Targeting a core embedded systems internship.

## SKILLS

- Embedded C
- Circuit Design
- ESP32
- PCB Design
- Internet of Things (IoT)
- PCB Soldering
- Arduino

## ADDITIONAL DETAILS

- Shipped 10-20+ embedded systems projects (10+ monthly) while managing 2nd-year ENTC coursework. Built client base through referrals. Generated ₹15,000+ in freelance revenue.
